We bring art, music, theatre and the humanities closer to every public

Esther's history

Esther. 19 years old. Sevilla

"With laughter we forget all our troubles."

My name is Esther del Amo Ponce, I'm 19 years old. With the stage name, Esther de la Cruz, I began to sing at about the age of 5. By the time I realised it, I'd already trod the boards a thousand times. My need was to sing, to perform and everything connected to the world of art. You are my life and my death. Then, my mother always told me: "Esther, I'm going to sign you up for something in the theatre, because you're good at it. People laugh I'm a real clown, always clowning around. I'm very fond of butterflies, talking non-stop, another overwhelming passion of mine. I've always thought, always dreamed of doing a musical. A big musical, where I sing and act, the two things together I've seen that, on days when I've been perhaps stupid or crying or unhappy and you go out, at peace. The theatre, I tell you, it's important that people see it and feel it. A child who's interested in it, must see it, go on with it... It's good And this is thanks to "la Caixa" offering a helping hand with the theatre. Look at this, look at the plays, try it like this, I'll send you material. You know, with laughter we forget all our troubles.
